A Healthy Proposition

At Dodla the cornerstone of our success is having a differentiated and agile business model which encompasses good governance, social responsibility, creating customer value, going global, strategic expansions and increasing process efficiency through technology adoption.

The reason behind our consistent growth over the years is due to our astute understanding of the right business model for the company and by meticulously implementing our strategies to achieve our business goals.

Today with an annual turnover of over Rs.1000 Crores Dodla Dairy Ltd is not only a leading Indian dairy but also an emerging MNC with recent forays into overseas markets.

While we embark on our journey for achieving greater heights, we will continue to make every step to add value to our stakeholders by maintaining a Healthy Business Proposition.

Chairman's Review

We would keep the milk wheel turning to secure future....

Welcome to our annual report 2014-15. This year's report comes with an elaborate narrative on our approach, performance, strategic intent and future plans. True to the theme of the report which is "A Healthy Proposition" our business model encompasses a health proposition of governance, focus on quality improvement, creating customer value, going global, social

responsibility strategic expansions and improving process efficiency through technology adoption. In terms of performance, 2014-15 has been a significant year for Dodla. We achieved a revenue of Rs.1,024 Cr as against 848 Cr in the previous year – a 20.75% revenue growth on year on year basis. During the year we also made critical forays into domestic as well as overseas markets.

Going forward we continue to update our vision which is "To be a world class dairy company by providing high quality Products and Services". Our mission continues to be, to supply good and safe milk products consistently through continual improvement of our systems and practices. While our vision and mission are the twin basic principles to deliver quality dairy products, we also make Dodla attractive to dairy farmers by making them as our business partners. Receiving fresh quality milk gives Dodla the strength to grow. The company's current milk procurement volume is over 9 lakh liters per day. With expansions underway, we still have room for more milk and more farmers in our fold. We would keep the milk wheel turning to secure

future supplies of the raw material that is the very basis of our existence.

One of the key initiatives during the year has been implementation of GPRS enabled electronic milko analysers at our milk procurement points to improve the milk quality and make every transaction with the dairy farmer transparent. This initiative has helped the company to connect directly with the farmers circumventing middlemen.

With this technology initiative we are able to generate the milk quality & quantity report at the time of procurement and provide the report instantly to each farmer. Based on the report generated the payment to the farmer is made in every 10 days. Routing the payment through the bank, ensures transparency and enables the farmers to derive the benefits of financial inclusion such as savings and obtaining farmer loans.

I take this opportunity to thank our farmers, employees, associates and banks who together have contributed to our good performance. We will continue to surpass our previous performance in the years to come.

With Regards

**D. Sesha Reddy
Chairman**

Business Model

Our functional goals are aligned with our vision, mission and values.

Our operations are organised in such a way that they are close to the markets and customers we serve. The product marketing consists of two dedicated teams focusing on liquid milk and value added dairy products.

All operational decisions are made locally at the locations because, in our experience such kind of calls are most successful when made by the people who have the best understanding of the markets and who have to implement them.

The board of directors and senior management aims to provide a framework in which our team leaders have the freedom and decision-making authority to pursue opportunities with entrepreneurial flair. All our functional goals are aligned with our vision, mission and values.

Vision

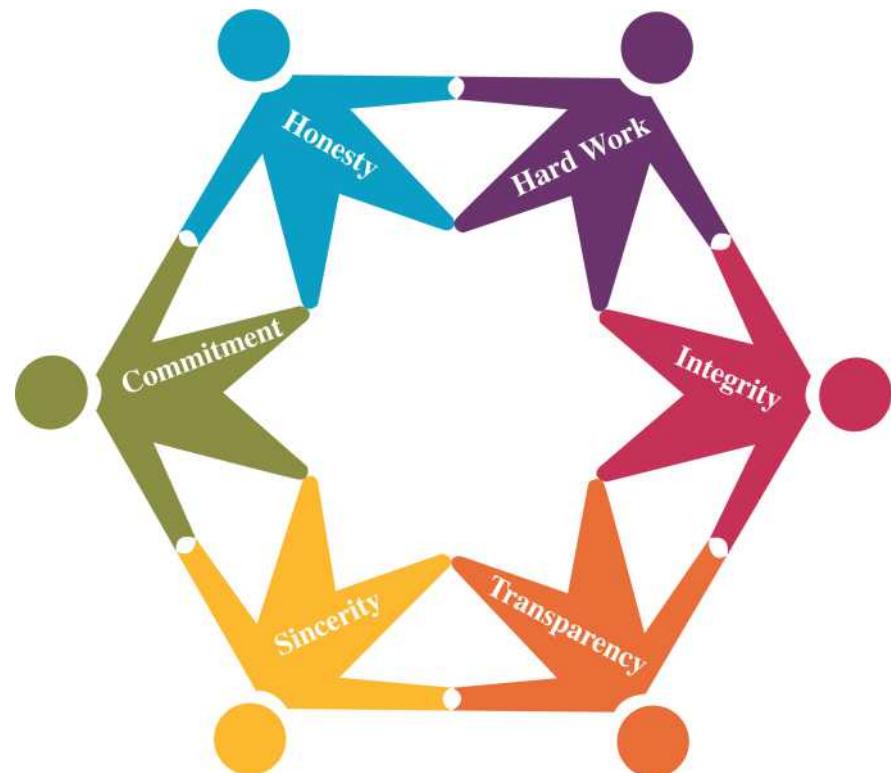

To be a world class dairy company by providing high quality Products and Services.

Mission

To supply good and safe milk products consistently through continual improvement of our systems and practices.

Our values are commitment, sincerity, hard work, transparency, integrity and honesty. These values are our "CORE" and we will display them in all our actions.

We believe in the best quality right from Raw Material to Processing, Processing to Distribution and Management of People. We are Prudent in guarding and conserving our resources effectively.

Review of Dodla Strategy by Managing Director

We make ourselves adaptive to changes by remaining agile

On Dodla's approach to strategy

Dodla operates in a business environment which is highly competitive and less malleable. In milk and value added dairy products market prediction is difficult and business advantage can be short-lived. To stay successful in this volatile market environment, at Dodla we make ourselves adaptive to changes by remaining agile, and quickly identifying new options with respect to operations, technology, products & markets. Depending upon the success of these new options we quickly allocate and reallocate resources. Our approach to strategy is a cycle in which we vary with different strategic options followed by selecting the most promising options and scaling up towards the goal.

When it comes to team work we balance the top down and bottom-up approach while setting new strategies. This approach encourages team work and research among all functional areas of the company such as Procurement production, marketing, HR and finance. In each functional area we run what we call the 4E innovation Model – explore, enable, evangelize and empower. As an adaptive organization we continuously upgrade our systems and methods by benchmarking the best practices among various process

industries Today we are able to capture and share external signals and to generate and manage a portfolio of strategic initiatives effectively as we are information enabled.

Recent strategic initiatives

Our strategies are aimed at strengthening the milk value chain which encompasses the dairy farmers i.e milk producers, employees, processing facilities and consumers.

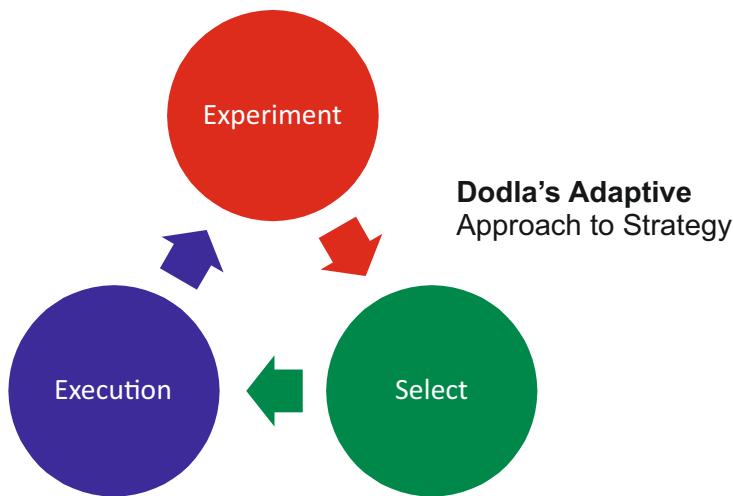

Today we are the only dairy company in the private sector having own dairy farm which helps us to understand all complex issues related to dairy farming.

Since we have our own procurement

processing and distribution facilities, we have better control on our operations. We have initiated stringent quality control measures and best processing practises in the entire gamut of dairy operations to make profit in this highly competitive market space.

Our model dairy farm located inside IGCARL (Indira Gandhi Centre for Advanced Research) at Pulivendula in Andhra Pradesh has over 500 cows. We have deployed, up-to-date breeding, feeding and healthcare practices in this farm. We also share the tried and tested best farming practices with dairy farmers.

In our business we deal with milk - a highly perishable animal produce.

We have made our entire process agile with IT implementation through Microsoft Dynamics ERP. The operational modules deployed includes General Ledger, Accounts Receivable, Accounts Payable, Milk Procurement, Inventory, Production (Process), Fixed Assets, Milk Distribution, Product Distribution and Production and transfer.

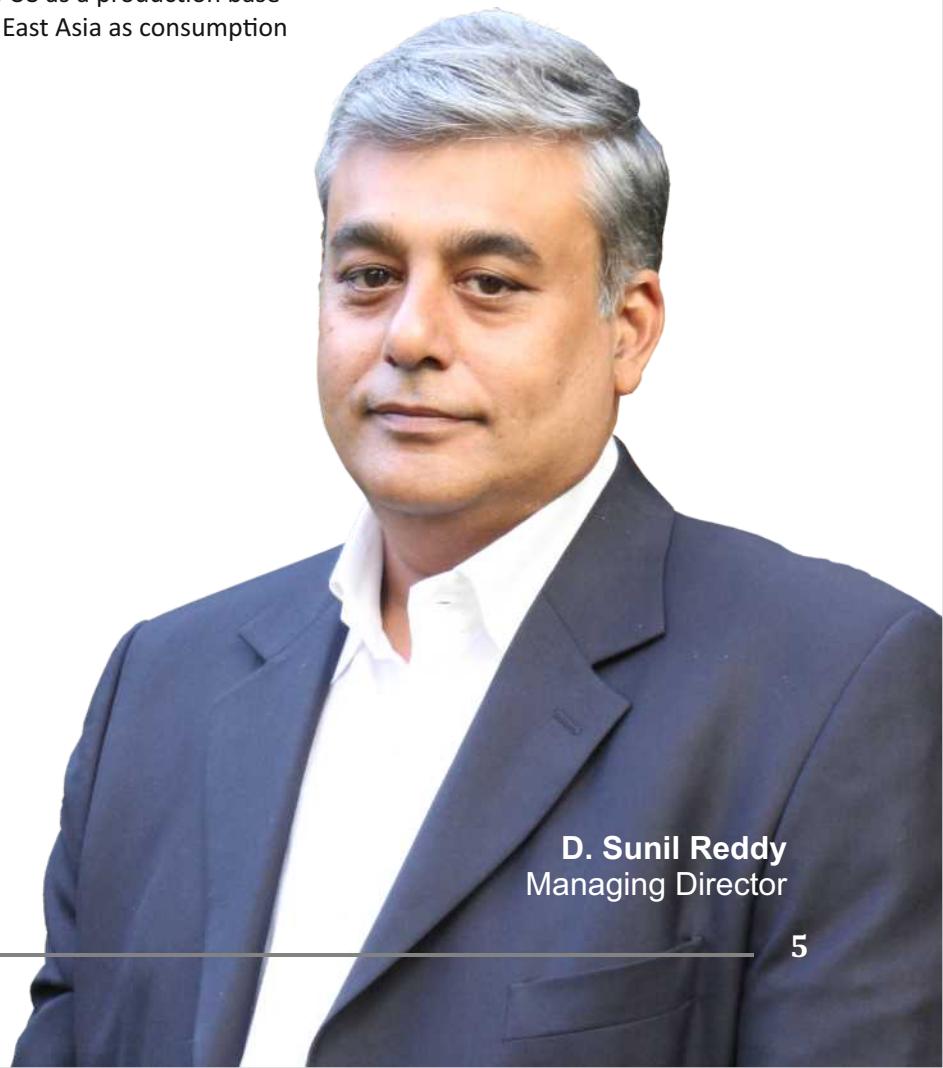

On Growth

When dairy brand proliferation is happening in existing markets the only option for growth and to stay competitive is by expanding markets. We have been rapidly expanding our domestic markets and currently our products are available in 9 states and over 66 locations in the country. Apart from our nine processing plants we are in the process of acquiring few more plants in key markets in India. We are also commissioning a fully automated milk processing plant near Hyderabad city by June 2016 with an initial capacity of two lakh litres a day. This plant is also equipped with ice-cream preparation and value added product manufacturing facilities.

Dodla has a good base in Value Added Dairy Products (VADP). We will continue to strengthen our VADP brands by focusing on enhancement of customer satisfaction, innovation, efficiency and value creation. In 2015 our VADP sales grew 8% on a year on year basis. Within the VADP sales the branded curd sales marked a growth of 62%.

During the year our attempts to foray into African markets have materialized. We had acquired a milk processing asset in Uganda which commenced operations during the current financial year. Presently sells around 15,000 litres of milk daily in this market. This is our key overseas strategy against the backdrop of Africa's food and beverage consumption projected to reach \$544 billion by 2020. In the coming years we foresee such strategic overseas expansions aiding our next level of growth. We are exploring to enter Sri Lanka, Singapore, and the US in next two-three years. We will look at the US as a production base and South East Asia as consumption market

“...Dodla has a good base in Value Added Dairy Products (VADP). We will continue to strengthen our VADP brands by focusing on customer relations, innovation, efficiency and value creation...”

Performance Highlights

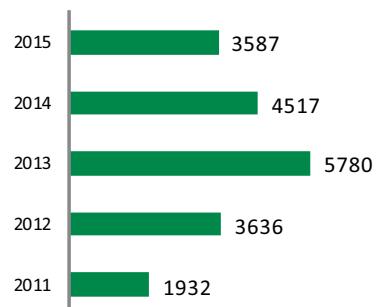

During the year the company achieved a turnover of 102400 lakhs – a 20.75% growth year on year basis.

The higher growth was achieved by increase in the sales of liquid milk as well as value added products. However in sync with the prevailing dairy business environment in India, the company's margins continued to be under pressure. Despite increase in procurement prices the liquid milk rates remained more or less stable. Overall dairy market in India was also impacted by the weak International prices.

Dodla's liquid milk sales has grown by 25% and the value added product sales by 8% on year on year basis

Dodla has a strong focus on developing the liquid milk as well as Value Added Dairy Product (VADP) sales. In 2014-15, Dodla executed a clear product growth strategy across product categories. As a result Dodla's liquid milk sales has grown by 25% and the value added product sales by 8% on year on year basis. Within the VADP the share of curd is 73% in FY15 as against 45% in FY14. Dodla could achieve this growth with consistent expansion of markets, infrastructure and by adding value in products.

Review of Operations - India

The key operational initiative during the year has been adoption of Standard Operating Procedures (SOPs)

Company's operations primarily consists of milk Procurement, Quality check, logistics, transportation, statutory compliances, processing & marketing. All decisions related to operational policies, administration, and execution is centralized at the Corporate Office located at Hyderabad.

During the year GPRS enabled electronic milko analysers were introduced at our milk procurement points to improve the milk quality and make every transaction with the dairy farmer transparent. This initiative has helped the company to connect directly with the farmers circumventing middlemen. With this technology initiative we are able to generate the milk quality & quantity report at the time of procurement and provide the report instantly to each farmer.

During the year under review the ghee section in the Nellore plant was modernized and also the capacity has been enhanced . In the Koppal plant Extended Shelf Life (ESL) Milk processing facility has been

commenced. As part of our marketing division's mission direct to consumer-Dodla Retail Point (DRP) were introduced during the year. Over 33 parlours have been established across various parts of Telangana and Andhra Pradesh states.

Standard Operating Procedures
The key operational initiative during the year has been adoption of Standard Operating Procedures (SOPs) across all functions. With the ongoing implementation of SOPs the company is able to streamline its processes. The SOP implementation is enabling us to remove grey areas and bringing clarity of roles and the transactions.

IT enabled SCM

The Microsoft Dynamics -ERP solution deployed in the company fully integrates enterprise-wide financial controls. Efficient tracking of day-to-day billing (invoices), receivables, and sales allow complete financial visibility required for business decision. The Integrated supply chain at Dodla Dairy addresses issues of both material flow and information flow. It captures all the complexities of multi-product perishables. The seamless information flow improves data integrity and significantly reduces duplication and effort. It has cut down the information processing time for quality check and distribution.

Key Benefits of SOPs

- Reduce training time for new employees
- Better Employee Performance Management
- Ensured business continuity
- Standardized processes
- Perfect delegation of tasks
- Reduction of turnaround time
- Easy replication of systems and methods in new locations

Farmers

The farmers have always been central to Dodla Dairy, since they are the suppliers of the milk, our most important raw material. Farmers are an essential part of our milk value chain and their milk production is seamlessly connected with our milk processing and marketing. Dodla Dairy collects 9 lakh litres of Milk per day from about 2,00,000 farmers. The company is procuring high quality milk by using electronic milk analyzers which generate the milk quality & quantity report at the time of procurement as well as speedy payment disbursements in a transparent manner. The company also educate farmers on best farming practices.

Dodla dairy is among the few dairy processors in the country having own dairy farm. Situated in Pulivendula in AP with over 500 animals, this is a state of the art dairy farm where all modern farming methods are practiced. Having own farm give the company a firsthand experience in all aspects of dairy farming.

Employees:

Dodla dairy has a team of over 1800 employees across various locations in India and Overseas. All the employees are qualified and trained to execute the jobs in an efficient manner. Over a period of past 18 years we have been identified as distinguished dairy company where the employees are treated as family members and there is an admiration among the perspective candidates to join Dodla family. Our average attrition rate is 6 %, which is much lesser than any

other dairy company in Southern India. This indicates the employee satisfaction level in the company. The main driver's for retention includes learning, earning and treatment. We at Dodla treat the employees with utmost respect and give value for their suggestions and ideas.

Consumer

The company is certified for Food Safety Management system-ISO 22000:2005. The company has established stringent quality control measures right from the milk collection level at village to the consumers at urban level. The various screening measures will include screening checks for adulteration like urea, sugar, salt, oil and detergent are being conducted before packing milk. Company's R&D has already developed many valued added dairy products considering the consumer demand for various dairy variants. Our

product responsibility also includes innovations in the packaging to match with the consumer convenience such as ESL.

Environment

TÜV SÜD South Asia awarded ISO 50001:2011 Energy Management System certification to Dodla Dairy Limited. Dodla is the first dairy company in India which got this certification in Energy Conservation. This new certification is an outcome of company's initiatives to induce process driven alterations in the systems in order to improve energy efficiency, use and consumption, save costs, cut greenhouse gas emissions. This initiative has further helped the company to consolidate its leadership position by means of innovative utilization of funds to improvise upon their product offering and consumer outreach.

EXPLANATORY STATEMENT IN RESPECT OF THE SPECIAL BUSINESS PURSUANT TO SECTION 102 OF THE COMPANIES ACT, 2013

Special Business

Item No.1:

Keeping in view the Company's existing and future financial requirements to support its business operations, the Company needs additional funds. For this purpose, the Company is desirous of raising finance from various Banks and/or Financial Institutions and/or any other lending institutions and/or Bodies Corporate and/or such other persons/ individuals as may be considered fit, which, together with the moneys already borrowed by the Company (apart from temporary loans other than those borrowed for the purpose of financial expenditure of a capital nature obtained from the Company's bankers in the ordinary course of business) may exceed the aggregate of the paid-up capital and the free reserves of the Company. Hence it is proposed to increase the borrowing limits. Pursuant to Section 180(1)(c) of the Companies Act, 2013, the Board of Directors cannot borrow more than the aggregate amount of the paid-up capital of the Company and its free reserves at any one time except with the consent of the members of the Company in a general meeting. In order to facilitate securing the borrowing made by the Company, it would be necessary to create charge

on the assets or whole of the undertaking of the Company. Section 180(1)(a) of the Companies Act, 2013 provides for the power of Board of Directors to lease or otherwise dispose of the whole or substantially the whole of the undertaking of the Company subject to the approval of members in the general meeting.

The Board recommends this resolution for the approval of the members as Special Resolutions.

ANNEXURE IV

ANNUAL REPORT ON CORPORATE SOCIAL RESPONSIBILITY

Definition and Applicability:

The CSR policy speaks about Dodla Dairy's intent to support to the rural community through various developmental programmes, called Dodla CSR policy. This policy shall apply at all major mandals and towns of Chittoor & Nellore Dist. of Andhra Pradesh initially. This may be extended to the other parts of the Country in the near future for the benefit of society at large.

Vision:

The main objective of Dodla CSR policy is giving back to the rural society which has helped its business growth and sustenance so far. The area of community development includes Malnutrition & Eradicating hunger, Animal health, Drinking water, Rural Infrastructure facilities, Rural Education/promoting gender equality among rural mass.

CSR Committee Formation & Purpose:

Dodla shall extend its services through its CSR committee for fulfilment of its role as a socially responsible corporate. Board of Directors (BOD) will form the committee with not less than five (5) members. BOD will authorize CSR Committee to approve sub-committee with not less than two (2) members in various locations as per the need. The committee shall work in the areas of Chittoor & Nellore districts on various social welfare programmes and take active part to resolve the issues. Also, the employees of Dodla Dairy are encouraged to participate and involve in the welfare programmes when the said CSR activities are happening near to their operational locations / units.

The purpose and responsibilities of the Committee shall include such other items/matters prescribed under applicable law or prescribed by the Board in compliance with applicable law from time to time.

CSR Committee Responsibilities:

1. The Committee shall annually review the CSR Policy and associated frameworks, processes and practices of the Company and make appropriate recommendations to the Board.
2. The Committee shall ensure that the Company is taking the appropriate measures to undertake and implement CSR projects successfully and shall monitor the CSR Policy from time to time.
3. The Committee shall identify the areas of CSR activities and recommend the amount of expenditure to be incurred on such activities.

4. The Committee will coordinate with outside agency for implementing programs and executing initiatives as per CSR policy and shall review the performance of agency periodically.
5. The Committee may form and delegate authority to subcommittees when appropriate.
6. The Committee shall regularly report to the Board about the progress of various initiatives and make appropriate disclosures on a periodic basis.
7. The Committee shall review and reassess the adequacy of this Charter annually and recommend any proposed changes to the Board for approval.
8. The Committee shall have access to any internal information necessary to fulfil its role.
The Committee shall also have authority to obtain advice and assistance from internal or external legal, accounting or other advisors.

Meetings:

The committee shall meet at least four times a year. Two members present shall form the quorum for the meeting of the Committee.

Scope of the Activities:

The Committee has overall responsibility for: (i) identifying the areas of CSR activities; (ii) recommending the amount of expenditure to be incurred on the identified CSR activities; (iii) implementing and monitoring the CSR policy from time to time; and (iv) Co-ordinating with agency in implementing programs and executing initiatives as per CSR policy of the Company.

The purpose and responsibilities of the Committee shall include such other items/matters prescribed under applicable law or prescribed by the BOD in compliance with applicable law from time to time.

Fund Allocation:

For achieving the CSR objectives through implementation of meaningful and sustainable CSR programmes, Dodla shall allocate not less than 2% of its average Net Profit calculated as per Sec-198 of the Companies Act, 2013, as its Annual CSR Budget in each Financial Year.

From the annual CSR Budget allocation, a provision will be made towards the expenditure to be incurred on identified Areas, for undertaking CSR activities on a year on year basis. Allocation of the Annual Budget for CSR activities in any given year shall be as

per the provisions of the Companies Act 2013 and rules made thereof as amended from time to time. Any unspent/unutilized CSR allocation of a particular year, will be carried forward to the next year, i.e., the CSR budget will be non-lapsable in nature.

Implementation:

CSR programmes shall be undertaken by various units of Dodla to the best possible extent within the defined ambit of the identified "Thrust Areas". Project activities identified under CSR are to be implemented by specialized agencies, which could include Voluntary Organizations (NGO's), Recognized Institutes/Academic Institutions, Trusts, Self Help Groups, Mahila Mandals, and Professional Consultancies etc.

The time period over which a particular programme will be spread, will depend on its nature, extent of coverage and the intended impact of the given programme.

Programmes which involve considerable financial commitment and are undertaken on a timeframe of 2-10 years, will be considered as 'flagship programmes' and will be given special attention.

For CSR projects, the time-frame and periodic milestones should be finalized at the time of approval of the Project.

Implementation process:

- i) Identification of programmes at Corporate and Unit level will be done as per the following procedure:-
 - (a) Need identification studies by a committee constituted by the CSR Committee of the Company on a broader level.
 - (b) Internal need assessment by a team at the unit level.

INDEPENDENT AUDITORS' REPORT

TO THE MEMBERS OF DODLA DAIRY LIMITED

Report on the Financial Statements

We have audited the accompanying financial statements of Dodla Dairy Limited ('the Company'), which comprise the balance sheet as at 31 March 2015, the statement of profit and loss and the cash flow statement for the year then ended and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ('the Act') with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit.

We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the financial

statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on whether the Company has in place an adequate internal financial controls system over financial reporting and the operating effectiveness of such controls. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified audit opinion on the financial statements.

Basis for Qualified Opinion

As fully explained in note 2.40 of the financial statements, the Company has not obtained prior approval from the Central Government of India as required under Section 295 of the Companies Act, 1956 with regard to the loans given to a partnership firm in which the directors are partners. In respect of the said loans given after 12 September 2013 till 31 March 2015, the Company has contravened the provisions of Section 185 of the Act which prohibits giving of such loan. Further, no interest has been accrued on such loans as required by sub-section 7 of Section 186 of the Act. We are currently unable to quantify the impact of the non-compliance with Section 295 of the Companies Act, 1956, Section 185 and 186 of the Act on the profit for the year and the net assets of the Company as at 31 March 2015.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, except for the possible effect of the matter described in the Basis for Qualified Opinion, the aforesaid financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March 2015, and its profit and its cash flows for the year ended on that date.

Report on Other Legal and Regulatory Requirements

As required by the Companies (Auditor's Report) Order, 2015 ('the Order'), issued by the Central Government of India in terms of sub-section (11) of Section 143 of the Act, we give in the Annexure a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

As required by Section 143(3) of the Act, we report that:

- a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;
- b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
- c) The balance sheet, the statement of profit and loss and the cash flow statement dealt with by this Report are in agreement with the books of account;
- d) In our opinion, the aforesaid financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014;
- e) On the basis of the written representations received from the directors as on 31 March 2015, and taken on record by the Board of Directors, none of the directors is disqualified as on 31 March 2015 from being appointed as a director in terms of Section 164 (2) of the Act; and
- f) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - (i) The Company has disclosed the impact of pending litigations as at 31 March 2015 on its financial position in its financial statements - Refer note 2.25 (iii) of the financial statements;
 - (ii) The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses; and
 - (iii) There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.

Dodla Dairy Limited

Annexure to the Independent Auditors' Report on the financial statements

The Annexure referred to in the Independent Auditor's Report to the Members of Dodla Dairy Limited ('the Company') on the financial statements for the year ended 31 March 2015, we report that:

- (i)(a) The Company has maintained proper records showing full particulars including quantitative details and situation of fixed assets.
- (b) The Company has a regular program of physical verification of its fixed assets by which all fixed assets are verified every year, except for certain assets which are in the possession of vendors. The Company has obtained confirmation of these assets from the vendors. In our opinion, the periodicity of physical verification is reasonable having regard to the size of the Company and the nature of its assets. In accordance with this program, all the fixed assets were verified during the year and no material discrepancies were noticed on such verification.
- (ii)(a) The inventory, except goods-in-transit, has been physically verified by the Management during the year. In our opinion, the frequency of verification is reasonable.
- (b) In our opinion, the procedures for the physical verification of inventories followed by the Management are reasonable and adequate in relation to the size of the Company and the nature of its business.
- (c) The Company has maintained proper records of inventory. The discrepancies noticed on verification between the physical stocks and the book records were not material.
- (iii) According to the information and explanations given to us, the Company has granted interest free loan to a firm covered in the Register maintained under section 189 of the Companies Act, 2013 ('the Act'). The Company has not granted any loan, secured or unsecured, to any company or other parties covered under the Section 189 of the Act. In case of the interest free loan granted to the firm listed in the Register maintained under Section 189 of the Act, the tenure and repayment terms were not specified in the agreement and accordingly it was repayable on demand. The loan was repaid during the year as per the demand made by the Company and accordingly, the paragraphs 3(iii)(a) and 3(iii)(b) of the Order are not applicable to the Company.
- (iv) In our opinion and according to the information and explanations given to us, and having regard to the explanation that purchases of certain items of inventories and fixed assets are for the Company's specialised requirements and similarly certain services rendered are for the specialised requirements of the buyers and suitable alternative sources are not available to obtain comparable quotations, there is an adequate internal control system commensurate with the size of the Company and the nature of its business with regard to purchase of inventories and fixed assets and sale of goods and services, except that, the internal control system for purchase of fixed assets with respect to documenting the justification for not obtaining alternative quotations needs to be strengthened further. In our opinion, there is continuing failure to correct a major weakness in the internal control system with regard to purchase of fixed assets.
- (v) The Company has not accepted any deposits from the public in accordance with the provisions of Section 73 to 76 of the Act and Rules framed thereunder.
- (vi) The Central Government of India has not prescribed the maintenance of cost records under section 148(1) of the Act for any of the goods sold or services rendered by the Company. Hence, paragraph 3(vi) of the Order is not applicable to the Company.
- (vii)(a) According to the information and explanations given to us and on the basis of our examination of the records of the Company, amounts deducted/ accrued in the books of account in respect of undisputed statutory dues including Provident Fund, Employees' State Insurance, Income-tax, Sales tax, Wealth tax, Service tax, Duty of Customs, Duty of Excise, Value added tax and other material statutory dues have generally been regularly deposited during the year by the Company with the appropriate authorities though there has been a slight delay in a few cases. As explained to us, the Company did not have any dues on account of Cess.

According to the information and explanations given to us, no undisputed amounts payable in respect of Provident Fund, Employees' State Insurance, Income-tax, Sales tax, Wealth tax, Service tax, Duty of Customs, Duty of Excise, Value added tax and other material statutory dues were in arrears as at 31 March 2015 for a period of more than six months from the date they became payable except as mentioned below:

Name of the statute	Nature of the dues	Amount in ₹ (excluding interest)	Period to which the amount relates	Due date	Paid subsequent to the year end
Tamil Nadu Value Added Tax Act, 2006	Sales tax	2,609,230	July 2012 to November 2012	20th of the subsequent month	Not paid till date

- (b) According to the information and explanations given to us and the records of the Company examined by us, there are no dues of Sales tax, Wealth tax, Service tax, Duty of Customs, Duty of Excise and Value added tax which have not been deposited by the Company on account of any disputes. The Company however disputes the following dues of Income-tax:

Name of the statute	Nature of the dues	Amount in ₹*	Period to which the amount relates	Forum where the dispute is pending
Income-tax Act, 1961	Income tax and interest thereon	1,683,215 (689,893)	Assessment year 2008 - 2009	Deputy Commissioner of Income Tax Hyderabad Circle 1(2)
Income-tax Act, 1961	Income tax and interest thereon	30,367,280	Assessment year 2012 – 2013	Commissioner of Income Tax (Appeals) V

* The amounts in parenthesis represent the payment made under protest.

As explained to us, the Company did not have any dues on account of Cess.

- (c) According to the information and explanation given to us, there were no amounts required to be transferred by the Company to Investor Education and Protection Fund in accordance with the provisions of the Companies Act, 1956 and the rules made thereunder.
- (viii) The Company does not have any accumulated losses at the end of the financial year and has not incurred cash losses in the financial year and in the immediately preceding financial year.
- (ix) In our opinion and according to the information and explanations given to us, the Company has not defaulted in repayment of dues to its bankers. The Company did not have any outstanding dues to any financial institution or debenture holders during the year.
- (x) According to the information and explanations given to us, the Company has not given any guarantee for loans taken by others from banks or financial institutions.
- (xi) In our opinion and according to the information and explanations given to us, on an overall basis the term loans taken by the Company have been applied for the purpose for which they were raised.
- (xii) According to the information and explanations given to us, no material fraud on or by the Company has been noticed or reported during the course of our audit.

1. Significant accounting policies

1.1 Company overview

Dodla Dairy Limited ('the Company') was incorporated on 15 May 1995. The Registered office of the Company is situated at 8-2-696, Road No.12, Banjara hills, Hyderabad. The Company is in the business of processing/ production of milk and production of milk products.

1.2 Basis of preparation of financial statements

The financial statements of the Company have been prepared and presented in accordance with Indian Generally Accepted Accounting Principles (GAAP) under the historical cost convention on the accrual basis. GAAP comprises Accounting Standards specified under Section 133 of the Companies Act, 2013 ('the Act'), read with Rule 7 of the Companies (Accounts) Rules, 2014 and other pronouncements of the Institute of Chartered Accountants of India and the relevant provisions of the Act. These financial statements have been prepared and presented in Indian rupees.

1.3 Use of estimates

The preparation of financial statements in conformity with Indian Generally Accepted Accounting Policies (GAAP) requires management to make judgments, estimates and assumptions that affect the application of accounting policies, reported amounts of assets, liabilities, income and expenses and disclosure of contingent liabilities on the date of the financial statements. Actual results could differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Any revision to accounting estimates is recognised prospectively in the current and future periods.

1.4 Current and non-current classification

All assets and liabilities are classified into current and non-current.

Assets

An asset is classified as current when it satisfies any of the following criteria:

- a. it is expected to be realised in, or is intended for sale or consumption in the Company's normal operating cycle;
- b. it is held primarily for the purpose of being traded;
- c. it is expected to be realised within 12 months after the reporting date; or
- d. it is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least 12 months after the reporting date.

Apart from the above, current assets also include the current portion of non-current financial assets. All other assets are classified as non-current.

Liabilities

A liability is classified as current when it satisfies any of the following criteria:

- a. it is expected to be settled in the Company's normal operating cycle;
- b. it is held primarily for the purpose of being traded;
- c. it is due to be settled within 12 months after the reporting date; or
- d. the Company does not have an unconditional right to defer settlement of the liability for at least 12 months after the reporting date.

Apart from the above, current liabilities also include current portion of non-current financial liabilities. All other liabilities are classified as non-current.

1.4 Current and non-current classification (continued)

Operating cycle

Operating cycle is the time between the acquisition of assets for processing and their realisation in cash or cash equivalents.

1.5 Fixed assets and depreciation

Fixed assets

Tangible fixed assets are carried at the cost of acquisition or construction, less accumulated depreciation. The cost of fixed assets comprises the purchase price, non-refundable taxes, duties, freight and other directly attributable costs of bringing the assets to their working condition for their intended use. Borrowing costs directly attributable to acquisition or construction of those fixed assets which necessarily take a substantial period of time to get ready for their intended use are capitalised.

The cost of fixed assets acquired but not ready for their intended use before balance sheet date are disclosed as capital work-in-progress. Advances paid towards the acquisition of fixed assets outstanding at each balance sheet date are included in long-term loans and advances.

Depreciation

With effect from 1 April 2014, the Management has re-assessed and revised the estimated useful life of the tangible fixed assets as specified in Schedule II to the Companies Act, 2013. Depreciation on fixed assets is provided using the Straight Line Method ('SLM') over the useful life of assets estimated by the Company. If the

Management's estimate of the useful life of a fixed asset is different than that envisaged in the aforesaid Schedule, depreciation is provided based on the Management's estimate of the useful life. Pursuant to this policy, depreciation on fixed assets has been provided at the rates based on the following useful lives of fixed assets as estimated by Management:

Description*	Useful life in years
Laboratory equipment	3 years

*for this class of assets, the Management believes, based on technical evaluation carried out by them internally, that the useful life as given above best represent the period over which the Management expects to use these assets. Hence, the useful life for these assets is different from the useful life as in Schedule II of the Act.

Depreciation is calculated on a pro-rata basis from the date of installation till the date the assets are sold or otherwise disposed off.

Leasehold improvements are amortised over the primary period of the lease or estimated useful life of the asset, whichever is lower.

1.6 Intangible assets and amortisation

Acquired intangible assets are recorded at the consideration paid for acquisition.

Software is amortised on straight line basis over a period of three years.

1.7 Livestock

The Lactating cow (matured asset) purchased is initially recognised at the acquisition cost plus other costs (e.g. freight) required to bring it to the intended condition and location.

For the animals reared from conception (calf) and heifer, which are brought to maturity to make those animals productive, the cost comprises the following items:

- (i) The cost of calving;
- (ii) The cost of the fodder and cereals etc. that the calf or the young animal consumes till maturity; This will also include the cost of the milk that the calf is allowed to consume which otherwise would have been available for sale;
- (iii) A suitable share of the overheads comprising cost of water, supervision, maintenance of sheds and manure pits, medicines, veterinary surgeon's fees, etc. less sale proceeds or value of manure. The appropriate method of apportioning the overheads is allotment of appropriate weights to the various categories of animals in terms of their age.

Thus, the cost of a newborn calf is initially represented by (i) above and increases over the maturity period by the amounts stated in (ii) and (iii) above.

These costs are accumulated under capital work-in-progress till the calf matures and is ready for producing milk at which time the amount is recognised as livestock under tangible assets.

Where a calf is purchased and then reared, the cost comprise the purchase price, freight inwards and the costs listed at (ii) and (iii) above. If at the time of purchase, the animal has attained maturity, the purchase price plus freight is considered as its cost.

The initial cost of purchased heifer is the total of the purchase price and costs incurred to bring them to the location of use. Subsequently, the cost is increased by expenses mentioned at (ii) and (iii) above.

After purchase of lactating cow or after the calf/heifer reaches maturity, the subsequent costs (fodder, overheads, etc) of maintaining the cow are recognised as expense in the statement of profit and loss.

Depreciation

The strength or the earning capacity of the animal is higher in the initial years and remains constant for some time thereafter. Depreciation is commenced when animal achieves maturity and is charged on a straight line method over the estimated (balance) life of the animal which is estimated as 5 years. Disposal value at the end of the life is taken as nil because the carcass does not fetch anything substantial. Also, the removal of carcass does not usually involve significant cost.

When an animal dies, its carrying value is written off in the statement of profit or loss in the period in which such animal dies.

1.8 Investments

Investments that are readily realisable and intended to be held for not more than a year from the date of acquisition are classified as current investments. All other investments are classified as non-current investments.

Non-current investments are carried at cost less, any other than temporary diminution in value, determined separately for each individual investment. The reduction in the carrying amount is reversed when there is a rise in the value of the investment or if the reasons for the reduction no longer exist.

Current investments are carried at the lower of cost and fair value.

1.9 Inventories

Inventories comprise of raw materials, work-in-progress, finished goods, stock-in-trade and stores and spares and are carried at the lower of cost and net realisable value.

Cost of inventories comprises all costs of purchase, costs of conversion and other costs incurred in bringing the inventories to their present location and condition.

Raw materials, stock-in-trade and stores and spares are valued at weighted average cost method.

Work-in progress and finished goods are valued at material cost plus fixed production overheads allocated on the basis of normal capacity of production facilities.

Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and the estimated costs necessary to make the sale. The net realisable value of work-in-progress is determined with reference to the selling prices of related finished products. The comparison of cost and net realisable value is made on an item-by-item basis.

Raw materials and other supplies held for use in the production of finished products are not written down below cost except in cases where material prices have declined and it is estimated that the cost of the finished products will exceed their net realisable value.

Goods-in-transit are valued at cost which represents the costs incurred upto the stage at which the goods are in-transit.

1.10 Government grants

Government grants are recognised only when it is reasonably certain that the Company will comply with the attached conditions and the ultimate collection is not in doubt.

Where the government grants are in the nature of promoter's contribution and no repayment is ordinarily expected in respect thereof, the grants are treated as Capital Reserve which can be neither distributed as dividend nor considered as deferred income.

Where the government grants relate to specific fixed assets, the grants are treated as deferred government grant and are recognised in the statement of profit and loss in proportion to the depreciation charge over the useful life of the asset.

1.11 Employee benefits

Short-term employee benefits

Employee benefits payable wholly within twelve months of receiving employee services are classified as short-term

employee benefits. These benefits include salaries and wages, bonus and ex-gratia. The undiscounted amount of short-term employee benefits to be paid in exchange for employee services is recognised as an expense as the related service is rendered by employees.

Post employment benefits

Defined contribution plans

A defined contribution plan is a post-employment benefit plan under which an entity pays specified contributions to a separate entity and has no obligation to pay any further amounts. The Company contributes to the recognised provident fund which is a defined contribution plan. The Company's contribution is recognised as an expense in the statement of profit and loss during the period in which employees renders the related service.

Defined benefit plans

The Company's gratuity benefit scheme is a defined benefit plan. The Company's net obligation in respect of a defined benefit plan is calculated by estimating the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value. Any unrecognised past service costs and the fair value of any plan assets are deducted. The calculation of the Company's obligation under each of the two plans is performed annually by a qualified actuary using the projected unit credit method.

The Company recognises all actuarial gains and losses arising from defined benefit plans immediately in the statement of profit and loss. All expenses related to defined benefit plans are recognised in employee benefits expense in the statement of profit and loss. The Company recognises gains and losses on the curtailment or settlement of a defined benefit plan when the curtailment or settlement occurs.

Compensated absences

The employees can carry-forward a portion of the unutilised accrued compensated absences and utilise it in future service periods or receive cash compensation on termination of employment. Since the compensated absences do not fall due wholly within twelve months after the end of the period in which the employees render the related service and are also not expected to be utilised wholly within twelve months after the end of such period, portion of the benefit is classified as a long-term employee benefit. Compensated absences, is accrued based on the actuarial valuation done as per projected unit credit method as at the balance sheet, carried out by an independent actuary.

1.12 Foreign exchange transactions

Foreign exchange transactions are recorded using the exchange rates prevailing on the dates of the respective transactions. Exchange differences arising on foreign exchange transactions settled during the year are recognised in the statement of profit and loss.

All monetary assets and liabilities denominated in foreign currencies as at the balance sheet date are translated into Indian rupees at the closing exchange rates on that date; the resultant exchange differences are recognised in the statement of profit and loss. Non-monetary items which are carried in terms of historical cost denominated in a foreign currency are reported using the exchange rate at the date of the transaction.

Pursuant to ICAI Announcement "Accounting for derivatives" on the early adoption of Accounting Standard – 30 "Financial Instruments: Recognition and Measurement", the Company has adopted the standard, to the extent that the adoption does not conflict with existing mandatory accounting standards and other authoritative pronouncements, Company law and other regulatory requirements. Mark to market losses and gains on other derivative contracts are recognised in the statement of profit and loss.

1.13 Revenue recognition

Revenue from sale of goods in the ordinary course of activities is recognised on transfer of significant risks and rewards of the ownership to customers and no significant uncertainty exists regarding the amount of the consideration that will be derived from the sale of goods and regarding its collection.

The amount of revenue recognised is net of sales returns, trade discount and VAT, wherever applicable.

Income from conversion service is recognised on accrual basis and based on the terms and conditions of the relevant agreement.

Dividend income is recognised in the year in which the right to receive payment is established.

Interest income is recognised on a time proportion basis taking into account the amount outstanding and the interest rate applicable.

1.14 Impairment of assets

The Company assesses at each balance sheet date whether there is any indication that an asset may be impaired. If any such indication exists, the Company estimates the recoverable amount of the asset. For an asset that does not generate largely independent cash inflows, the recoverable amount is determined for the cash-generating

unit to which the asset belongs. If such recoverable amount of the asset or the recoverable amount of the cash generating unit to which the asset belongs is less than its carrying amount, the carrying amount is reduced to its recoverable amount. The reduction is treated as an impairment loss and is recognised in the statement of profit and loss.

If at the reporting date there is an indication that if a previously assessed impairment loss no longer exists, the recoverable amount is reassessed and the asset is reflected at the recoverable amount subject to a maximum of depreciable historical cost.

1.15 Leases

Assets taken on lease where the Company acquires substantially the entire risks and rewards incidental to ownership are classified as finance leases. The amount recorded is the lesser of the present value of minimum lease rental and other incidental expenses during the lease term or the fair value of the assets taken on lease. The rental obligations, net of interest charges, are reflected as other long-term liabilities. Leases that do not transfer substantially all the risks and rewards of ownership are classified as operating leases. The total lease rentals (including scheduled rental increases) in respect of an asset taken on operating lease are charged to the statement of profit and loss on a straight line basis over the lease term unless another systematic basis is more representative of the time pattern of the benefit.

1.16 Income tax

Income tax comprises current tax, deferred tax and minimum alternate tax (MAT) credit entitlement.

Current tax:

The current charge for income taxes is calculated in accordance with the relevant tax regulations applicable to the Company.

Deferred tax:

Deferred tax charges or credit and the corresponding deferred tax liabilities or assets are recognised using the tax rates that have been enacted or substantially enacted by the reporting date. Deferred tax assets are recognised only to the extent there is reasonable certainty that the assets can be realised in future, however, where there is unabsorbed depreciation or carry forward loss under taxation laws, deferred tax assets are recognised only if there is virtual certainty of realisation of such assets. Deferred tax assets are reviewed at each balance sheet date and written down or written up to reflect the amount that is reasonably / virtually certain (as the case may be) to be realised.

1.17 Borrowing costs

Borrowing cost directly attributable to the acquisition/construction of the qualifying asset are capitalised as part of the cost of the asset. Other borrowing costs are recognised as an expense in the period in which they are incurred in the statement of profit and loss.

1.18 Earnings per share

The basic earnings per share ("EPS") is computed by dividing the net profit attributable to equity shareholders for the year by the weighted average number of equity shares outstanding during the year. The Company has no potentially dilutive equity shares.

1.19 Provisions and contingencies

Provisions involving substantial degree of estimation in measurement are recognised when there is a present obligation as a result of past events and it is probable that there will be an outflow of resources. Contingent liabilities are not recognised but are disclosed in the notes. Contingent assets are neither recognised nor disclosed in the financial statements.

A provision is recognised if, as a result of a past event, the Company has a present obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are recognised at the best estimate of the expenditure required to settle the present obligation at the balance sheet date. The provisions are measured on an undiscounted basis.

A contingent liability exists when there is a possible but not probable obligation, or a present obligation that may, but probably will not, require an outflow of resources, or a present obligation whose amount cannot be estimated reliably. Contingent liabilities do not warrant provisions, but are disclosed unless the possibility of outflow of resources is remote. Contingent assets are neither recognised nor disclosed in the financial statements. However, contingent assets are assessed continually and if it is virtually certain that an inflow of economic benefits will arise, the asset and related income are recognised in the period in which the change occurs.

1.20 Cash and cash equivalents

Cash and cash equivalents in the cash flow statement comprise cash in hand and balance in bank in current accounts and deposit accounts. The Company considers all highly liquid investments with a remaining maturity at the date of purchase of three months or less and that are readily convertible to known amounts of cash to be cash equivalents.

1.21 Cash flow statement

Cash flows are reported using the indirect method, whereby net profit before tax is adjusted for the effects of transactions of a non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from regular revenue generating, investing and financing activities of the Company are segregated.

(iii) Contingent liabilities		
Claims against Company not acknowledged as debts :		
(a) The Company avails deduction under Section 80IB (11A) of the Income-tax Act, 1961 ('Act') for income generated from its various Milk Processing Units and Processing Plants. The Company believes that the basic criteria i.e. 'processing, preservation and packaging', as envisaged for claiming deduction under section 80IB (11A) of the Act, has been satisfied by the Company.		
During the year, the Company has received a notice under Section 143(3) of Act for Assessment Year - 2012-13, wherein deduction claimed under Section 80IB (11A) of the Act for income generated from its various Milk Processing Units has been disallowed. The disallowance has been made on the ground that the Company has not satisfied the requirements of the said section for its operations at Milk Processing Units. Accordingly, a demand for ₹ 30,367,280 (including interest of ₹ 10,254,579) has been made on the Company. The Management has preferred an appeal before the CIT(A). The Management believes that it will be able to demonstrate that the operations at the Milk Processing Units include all the three listed activities of 'processing, preservation and packaging'. Accordingly, no provision in respect of the demand has been made in the books.

2.39 During the previous year 2013-14, the Company purchased raw materials from GVC amounting to ₹ 619,807 and sold goods to GVC amounting to ₹ 7,578,749 in which Mr. D. Sunil Reddy, Managing Director is a Director. The said transactions are covered under Section 297 of the Companies Act, 1956 and requires prior approval of the Central Government of India ('CG'). The Company has not obtained the approval of CG. The Company has filed the requisite applications to the CG for compounding of the default, as required by the Companies Act, 1956. The response from CG on compounding application is awaited. As per provision of Section 629A of the Companies Act, 1956 Company has made provision towards penalty. Further, Management expects the offence to be compounded.

2.40 During the period from 1 April 2013 to 11 September 2013, the Company has given loans aggregating ₹ 47,125,000 and recovered an amount of ₹ 34,125,000 from Dodla Engineering (Partnership Firm) in which Mr. D. Sunil Reddy, Managing Director and Mr. D. Sesha Reddy, Chairman are partners. As per the provisions of Section 295 of the Companies Act, 1956, such loans require prior approval of the Central Government of India ('CG'). The Company had not obtained the approval of CG. The Company further advanced an amount of ₹ 127,000,000 during the period 12 September 2013 to 31 March 2015. The loan was fully recovered by 31 March 2015. According to the sub-section 1 of the Section 185 of the Companies Act, 2013, which was applicable from 12 September 2013, no Company shall give any loan to parties in which Directors are interested. As per the sub-section 2 of Section 185 of the Companies Act, 2013, if any loan is given in contravention of the sub-section 1 of Section 185 of the Companies Act, 2013, the Company shall be punishable with fine which shall not be less than five lakh rupees but which may extend to twenty-five lakh rupees.

Subsequent to the year end, the Company has filed two separate applications to the CG for compounding of the default, as required by the Companies Act, 1956 and Companies Act, 2013 respectively.

Further, the Company has not accrued any interest on the said loan for the year ended 31 March 2015. As per provisions of sub-section 7 of Section 186 of the Companies Act, 2013 no loan shall be given at a rate lower than the prevailing yield of one year Government Security which is closest to the tenure of the said loans. As per sub-section 13 of Section 186, if Company contravenes the provision of this Section, the Company shall be punishable with fine which shall not be less than twenty five thousand rupees but which may extend to five lakh rupees and every officer in default of the Company who is in default shall be punishable with imprisonment for a term which may extend to two years and fine which shall not be less than twenty five thousand rupees but which may extend to one lakh rupees. The Company is in process of filing necessary approval/compounding of the default.

The Management is of the view that all these defaults will not have material impact on the profit for the year or the net assets of the Company as at 31 March 2015

2.41 Transfer Pricing

The Company has established a comprehensive system of maintenance of information and documents as required by the transfer pricing legislation under Sections 92-92F of the Income-tax Act, 1961. Since the law requires existence of such information and documentation to be contemporaneous in nature, the Company is in the process of updating the documentation for the domestic and international transactions entered into with the associated enterprise during the financial year and expects such records to be in existence latest by the end of November 2015, as required by law. The Management is of the opinion that its domestic and international transactions are at arm's length so that the aforesaid legislation will not have any impact on the financial statements, particularly on the amount of tax expenses and that of provision for taxation.

2.42 Previous year's figures have been regrouped/ reclassified wherever necessary to conform to current year's presentation.
